EDUCATION

University of Washington Tacoma – B.A. Computer Science & Systems (Expected 2026)

Relevant Coursework: Data Structures, Algorithms, OOP, Software Design

TECHNICAL SKILLS

Languages: Java

Concepts: OOP, Data Structures, Algorithms, Debugging, File I/O

Tools: IntelliJ IDEA, GitHub, AI Productivity Tools, Spreadsheet & Reporting Tools

Professional: Leadership, Team Collaboration, Analytical Problem Solving, Adaptability

PROJECTS

Craps Game — Java

- Developed a casino-style craps game with randomized dice logic, balance tracking, and input validation.

Data Structures & Implementations Coursework — Java

- Implemented stacks, queues, arrays, recursive trees, and sorting algorithms in Java coursework.
- Applied abstraction, interfaces, generic classes, and complexity analysis to evaluate efficient implementations.

EXPERIENCE

Assistant Manager — 1915 KC House | SeaTac, WA | Mar 2019–Present

- Analyzed labor, sales, and operational data using spreadsheet and reporting tools.
- Reduced manual reporting work by optimizing outdated spreadsheet systems with formulas and automated tracking methods.
- Developed operational tracking spreadsheets supporting daily operations for 20+ employees.

ICPC Regional Programming Competition — Team Participant | 2026

- Collaborated in a 3-person team solving timed algorithmic programming problems under strict contest constraints.
